PROFESSIONAL EXPERIENCE

Rocket Mortgage

Nov. 2021 – present

Data Scientist

- Developed and deployed XGBoost propensity model that assigned individual clients to sales people, resulting in 10% increase in conversion.
- Created a Random Forest Regressor model that predicted the number of mortgage transactions for a client over three years, resulting in hundreds of thousands of mortgage lead opportunities.
- Created 100+ features in our AWS feature store, saving other data scientists hundreds of hours of data wrangling.
- Implemented Random Forest Classifier propensity model to quantify long-term client retention, resulting in the proactive sale of thousands of mortgage servicing rights.
- Leveraged K-Means cluster model to create custom marketing journeys.
- Taught a class of 50 analysts about how to use python for advanced analytics and machine learning.

University of Michigan (Part Time)

Sep. 2025 – present

Course Assistant - Masters Data Science Program

- Guest lecturer for the MS in Information program's Big Data Analytics track.
- Hosted office hours and teaching sessions for the Masters students in the Applied Data Science program.

Rocket Mortgage

Aug. 2017 – Nov. 2021

Senior Data Analyst

- Conducted AB tests to optimize phone contact strategy, reducing opt outs by 5% while maintaining production.
- Built several essential dashboards with tens of thousands of views in Tableau and Power BI.
- SQL Expert who's written hundreds of production-ready queries and stored procedures.
- Hosted knowledge shares about Rocket Mortgage's business operations for new analysts and data scientists.

EDUCATION

UNIVERSITY OF MICHIGAN

Ann Arbor, MI

Masters, Data Science

Graduated May 2025

- Awarded first place in cohort's capstone competition for my LLM work [Analyzing Brand Sentiment on Reddit](#)

UNIVERSITY OF MICHIGAN

Ann Arbor, MI

BA in Economics; Minors in Math and Religion

Graduated May 2017

PROJECTS and ARTICLES

- **Project** (Python, AWS, GitHub Actions) - [Automated Adult Hockey League Stats Tracker Website](#) ([Github](#))
- **Project** (Machine Learning): [High School Football Player to NFL Draft Propensity](#) ([Github](#))
- **Article** (Deep Learning) - [Neural Networks vs Classical Machine Learning Models](#) ([Github](#))
- **Article** (Supervised Learning) - [Building a Simple Machine Learning Model in Python](#)

SKILLS and AWARDS

- **Skills:** Python, SQL, Github, AWS, Sagemaker, Feature Store, ML Flow, Redshift, Athena, LangChain, Pandas, Neural Networks, Power BI, Tableau, Causal Inference, Time Series Modeling, Data Visualization, Statistical Tests
- **Awards:** Rocket Mortgage - *Best Breakthrough Performance (2018)*, Rocket Mortgage - *Best cross-team collaborator (2022)*, Rocket Mortgage - *Innovators & Disruptors Award (2023, 2024)*
